PROFESSIONAL SUMMARY

Proven React Developer with a track record of enhancing e-commerce and web app efficiency. Specializes in React, MongoDB & PostgreSQL, Redux for state management, and RESTful API integration. Excels in problem-solving and boosted application performance significantly. Demonstrates expertise in responsive design and JavaScript, ensuring optimal user experiences.

EXPERIENCE - 2 YEARS

Infideck - **React Developer**
Trivandrum, India
01/2024 - Current

- Working on E-commerce websites for clients using React and a PostgreSQL database. Redux is also being used alongside React to make the carts more flexible and to manage the states more easily
- Developed API endpoints using **Express** for the backend, with enhanced user security through the implementation of hashing algorithms.
- Converted Figma designs into fully functional, responsive websites, and enhanced the frontend with frameworks like **Three JS** and **Framer Motion.**
- Developed a travel feed app where users can post travel photos, view a feed of recent posts from people they follow, and load more data as they scroll. Implemented a skeleton loader for an enhanced user experience during initial data loading.

Addant Technologies - **React Developer**
Trivandrum, India
01/2023 - 01/2024

- Worked on the **IHL Web App**, which is developed for the American Red Cross Organization. Worked on the User Contribution section of the IHL Web App.
- Maintained high-level expertise in **React state management** strategies.
- Boosted application efficiency by incorporating **Redux** for state management and streamlining component re rendering.
- Worked on the quiz section of the web app in which the admin can create new questions and the created questions are then scheduled and posted to the IHL web app on the scheduled time
- **Supabase** is used as the database for the HPS Project's authentication because it includes built-in authentication and authorization services, simplifying user management
- Developed the UI & Integrated the TV screen page for the project, which displays the house real time points.

SKILLS

- React
- Responsive design
- RESTful APIs
- Redux
- PostgreSQL
- Mongo DB
- Express JS
- Postman
- State Management
- API Integration
- Git proficiency
- Javascript
- HTML
- Problem-Solving
- TypeScript Familiarity

EDUCATION

06/2022
Hindusthan College of Arts & Science
Coimbatore, India

MBA: Human Resources Management

04/2020
Anna University
Chennai, India

Bachelor of Engineering: Mechanical Engineering

CERTIFICATIONS

- React Development (Udemy)
- Python Development (Udemy)
